Obsessed with Details — 2026 Collection

FOLD

by Tord Boontje

One single element

Our FOLD collection by Tord Boontje differs fundamentally from traditional models in the way it innovatively blends the classic components of a door fitting — rosette, neck, and handle — into one single element. This is achieved thanks to an astute system with mounting akin to a bayonet system. The result is a door handle that appears to float elegantly on the door.

Onze FOLD collectie by Tord Boontje onderscheidt zich van traditionele modellen door de innovatieve manier waarop de klassieke componenten van een deurkruk — rozet, hals en greep — in één enkel element zijn samengevoegd. Door een slim systeem, dat in de montage vergelijkbaar is met een bajonetsysteem, zweeft de deurkruk als het ware sierlijk op de deur.

In detail

Rosette-less construction

With FOLD, the traditional distinction between handle and rosette is eliminated. The construction is conceived as a single seamless design element, mounted using a bayonet system that is known for its precision and reliability.

Exact centring and minimal visible components result in a calm appearance. All technical elements are invisibly integrated, allowing form and function to align naturally.

Bij FOLD verdwijnt het traditionele onderscheid tussen kruk en rozet. De constructie is opgevat als één naadloos geheel dat met een bajonet-systeem op de deur wordt bevestigd, een techniek die bekendstaat om zijn precisie en betrouwbaarheid.

Door exacte centrering en minimale zichtbare onderdelen ontstaat een rustig beeld. Alle technische componenten zijn onzichtbaar geïntegreerd, waardoor vorm en functionaliteit vanzelfsprekend samenvallen.

Auckland, New Zealand

Precision and contrast

FOLD reference: private residence

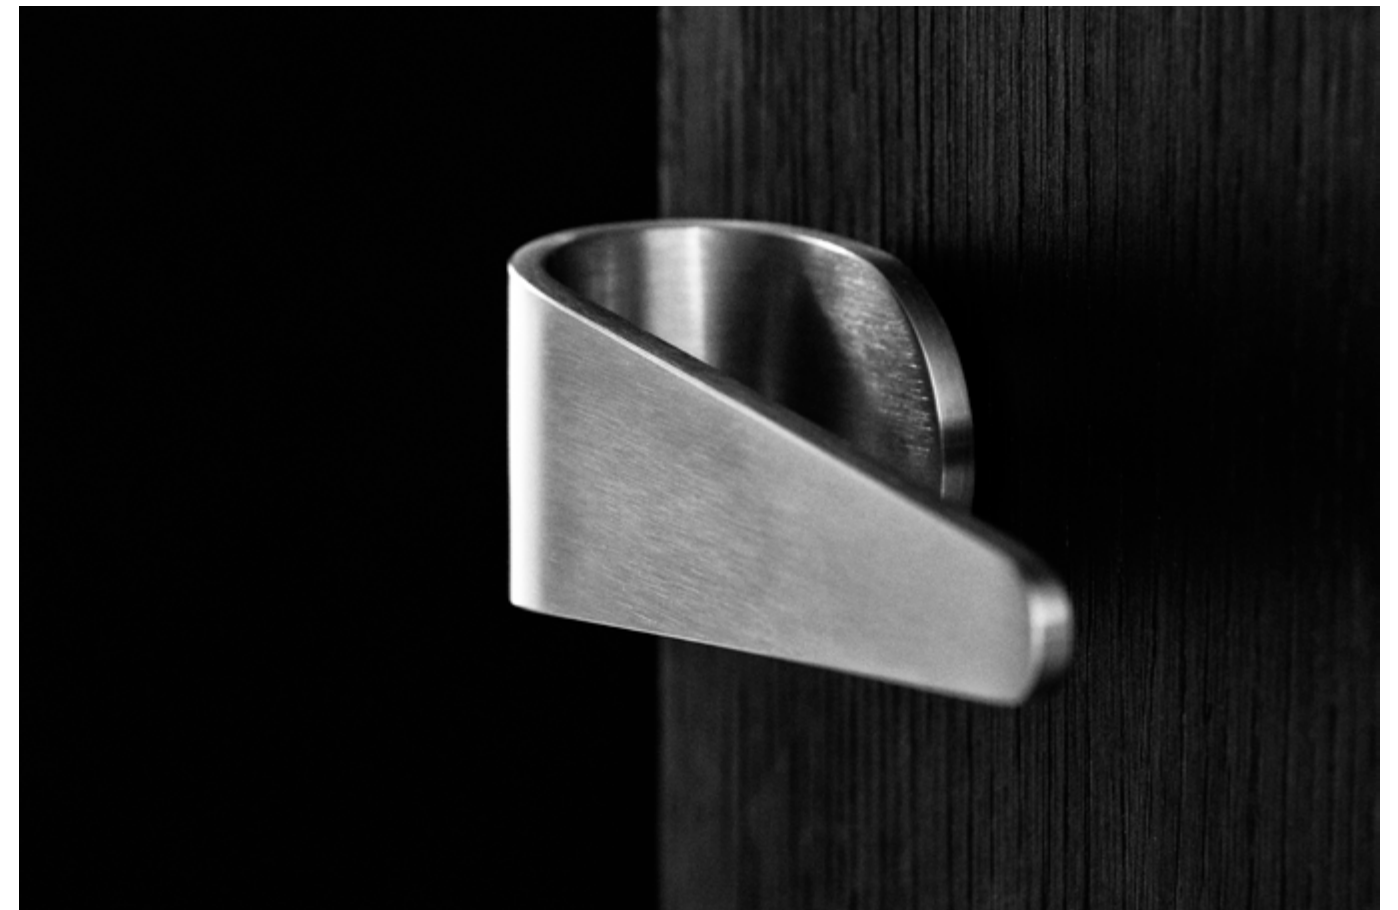

Interior design: Christian Anderson Architects

Photography: Simon Devitt

Product: FOLD TB100 satin stainless steel (left, below),

FOLD TB500 satin stainless steel (next page - left),

FOLD TB20M satin stainless steel (next page - right)

In this private residence in Auckland, Christian Anderson Architects shape minimalism through contrast and precision. Clean white planes meet dark timber surfaces, while daylight shifts highlight edges and textures, creating a calm, measured rhythm.

The FOLD collection integrates naturally within this restrained setting. Its softly bent form introduces a quiet sculptural note, supporting the interior's balance while preserving its clarity and composure.

In deze privéwoning in Auckland geeft Christian Anderson Architects vorm aan minimalisme via contrast en precisie. Strakke witte vlakken ontmoeten donker hout, terwijl daglicht randen en texturen accentueert en zo een rustig, beheerst ritme creëert.

De FOLD-collectie voegt zich moeiteloos in dit ingetogen geheel. De zacht gebogen vorm brengt een stille sculpturale nuance aan en ondersteunt de balans van het interieur, met behoud van helderheid en rust.
