Jede Platte ist bereits für die vertikale Montage vorbereitet und verfügt über drei verschiedene Lochtypen: Schlüssel, Zylinder und WC – für maximale Flexibilität und einfachen Einbau.

Shinobi

Soho

A round structure with a soft flow, creating a droplet shape at the finish. Soho is a highly refined handle with a classic concept evolved into a new generation style.

The roundness of the cylinder is embellished with a cross lattice knurling. City is a simple handle with a new flourish that emphasises its design.

9

Time

As the hand of a clock marks the time, this handle marks a certain elegance within its surroundings. For Time, different geometries meet in a single form.

Solis

Solis is new-generation simplicity. The round shape of the cylinder transforms into a flat rectangular body with soft corners, while maintaining a consistency of circularity.

Gas

Handle on Short Q plate
Maniglia su placca Short Q

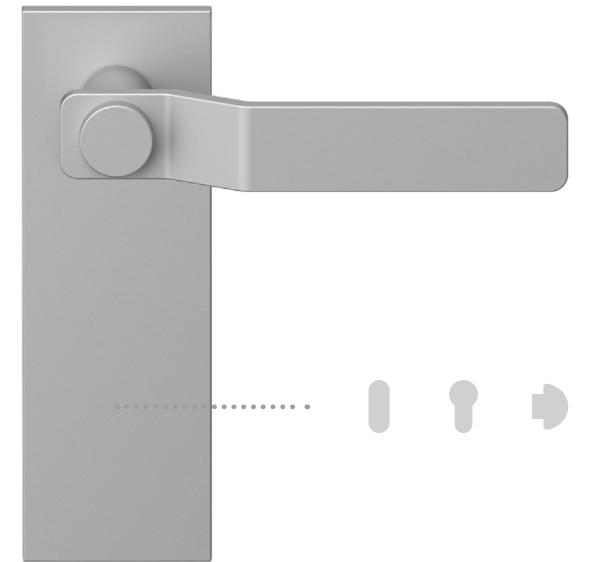

Gas is the contemporary reinterpretation of the common industrial flat lever handle, historically created through bending sheet metal. It is from these origins that the Gas handle is generated.

Gas Groove

Gas Groove is the twin of the Gas handle. The same industrial spirit but with a knurled detail that adds an element of unprecedented elegance for a product with a solid and compact mood.

Leeds

Leeds has a geometric concept where squares and rectangles stylishly alternate. It is a linear figure with the material concentrated on the rosette area for a super compact effect.

Elle
